

## *Ecological Craftsmanship*

We create a healthy work-iife environment by supplying sustainable pouring floors and coatings with an authentic look.

## *ECO FLOOR*

*Blend industrial with authentic!*

Creating a Silicate floor ensures a warm, pure, natural and healthy environment. ECO FLOOR adheres to many surfaces such as; concrete, tiles, cement, polyurethane and epoxy, without having to remove these floors first.

## *ECO WALL*

*Bring your walls to life!*

Due to its unique features like “waterproof” & “vapor permeable”, ECO WALL is the perfect choice for showers and swimming pools.

# ECO OBJECT

*The mastery of craft!*

ECO OBJECT covers work surfaces and furniture with silicate. It creates structure, nuances and atmosphere. In bathrooms, kitchens, offices, shops, ... it's all possible!

## Application

- Residential and industrial
- New construction and renovation
- Inside and outside
- Dry and wet areas
- Walls, furniture and work surfaces
